**Public Health Nurses,
Community Health Workers and
District Health Workers promote
and encourage healthy people
and healthy families living in
healthy neighborhoods.**

Community-Based Care

**Recognizing the needs
of the community**

Reaching Out Every Day

in homes, schools, neighborhoods and District Health Offices

Communicable Disease and Outreach

Provide immunizations during community outbreaks and for back to school requirements. Provide education and follow-up in the community to help in the prevention of the spread of communicable disease.

Home Visits

Provide health assessment of needs, education to promote a healthy lifestyle and assistance with referrals to community resources.

Immunization Clinics

Now by appointment, phone numbers listed on back.

Postpartum/Newborn Services

Provide home visitation for the new mom and baby after discharge from the hospital. Healthy Families Services provide home visitation for the new mom and baby on an ongoing basis. Support and discussion are provided to help in the growth and development of the baby.

Prenatal Care Coordination

Assists pregnant women in receiving necessary medical care and resources in the community. A healthy pregnancy and a healthy mom and baby are the goals.

Walk in Services

Services provided at the District Health Offices and other selected sites include:

- Immunizations
- Tuberculosis services (skin tests and medications)
- Blood pressure screening
- General health counseling and referrals
