

# OD2A: LOCAL NEWSLETTER

November 2024

## OD2A: Focus on Data

October was a busy month for OD2A grantees as we continue to meet CDC grant deliverables and serve Marion County.

**151** referrals to community resources (such as shelter, food pantries, clothing pantry etc)

**2,183** Naloxone doses distributed to agencies/individuals

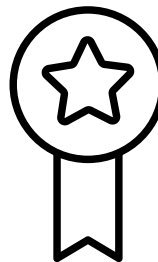

**766** mouth shields distributed to agencies/individuals

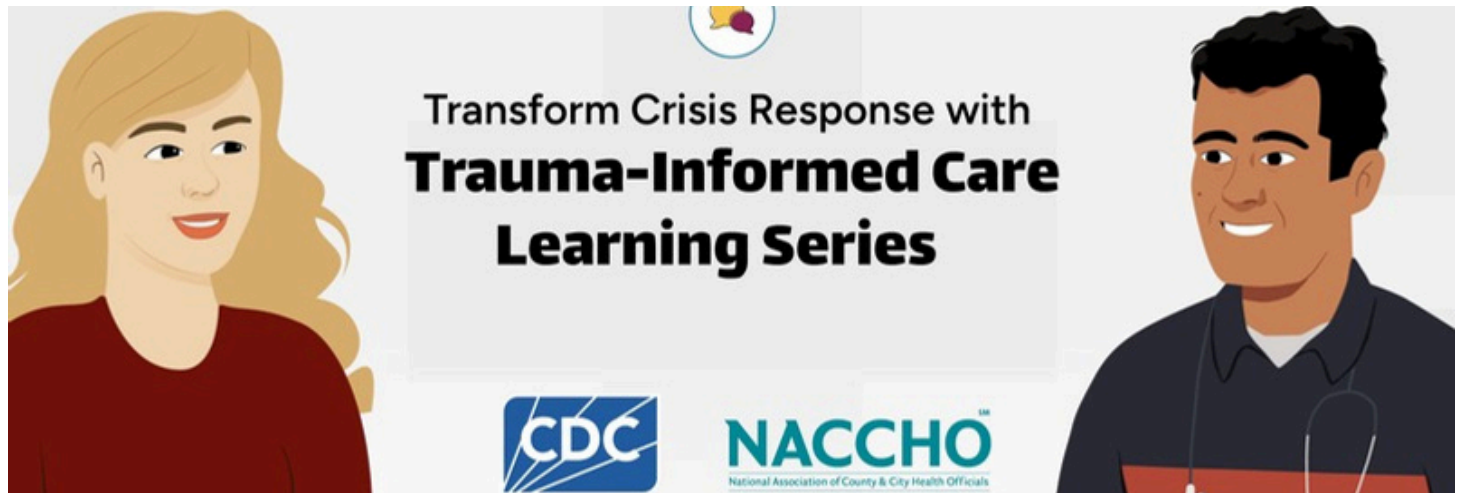

**44** referrals to treatment/services

**42** Naloxone trainings held across Marion County

**3,372** Fentanyl test strips distributed.

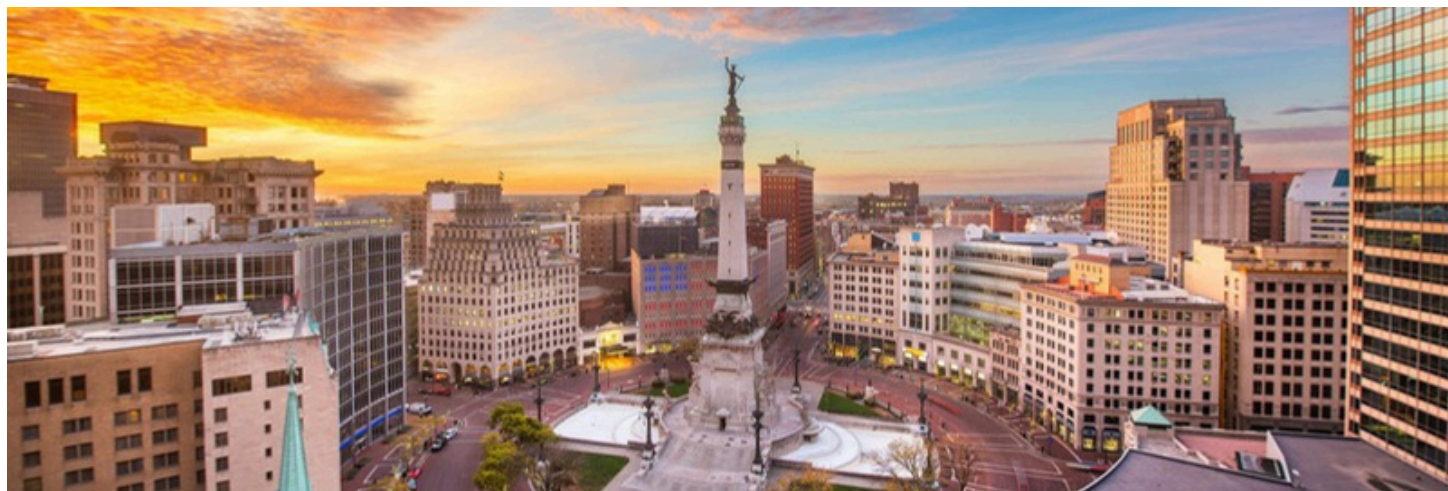

The CDC, in partnership with NAACHO, are offering a free online training to provide first responders and post-overdose teams with the knowledge and tools to provide trauma-informed care when interacting with people who experienced an overdose.

The course contains five modules and provides free continuing education credit.

Modules include:

- Introduction to Trauma-Informed Care for Post-Overdose Outreach Teams
- The Effects of Trauma and Toxic Stress
- The Overdose Epidemic
- Trauma-Informed Care
- Trauma-Informed Responses

More information can be found [here](#).

The Marion County Coroner's Office, in partnership with the Marion County Public Health Department, has released the latest [quarterly report](#) on suspected overdose deaths in Marion County. The report contains a summary on the number of suspected overdose deaths and breakdown of other data including distribution by age, sex, and race/ethnicity and toxicology reports.

Access the report [here](#).

## IDOH: Free Naloxone Training Opportunities

The Indiana Department of Health (IDOH) is providing free virtual [Naloxone training](#) for first responders and for the general public as well. The trainings will cover the basics of the opioid epidemic, statistics, stigma reduction, and how to administer Naloxone during a suspected overdose.

The training is free for anyone and can be access [here](#).

# Beyond Substance Podcast

In the 3rd episode of season 2, Beyond Substance delves into the use of buprenorphine for treating opioid use disorders, featuring insights from Dr. Carol Dellinger and the personal story of Bailey Wisher.

## Overdose To Data Action Grant

The CDC implemented the Overdose Data to Action (OD2A) cooperative agreement in 2019 to address the raising rates of fatal and non-fatal overdoses in the United States. OD2A focuses on understanding and tracking the complex and changing nature of the drug overdose crisis by seamlessly integrating data and prevention strategies. In August 2023, CDC awarded new five-year cooperative agreements to 90 jurisdictions including Marion County.

OD2A recipients focus on:

- Address the evolving epidemiology of the drug overdose crisis.
- Close identified gaps in prevention activities.
- Apply lessons learned from the previous OD2A funding opportunity.
- Reflect the differing roles and spheres of influence state and local health departments and their partners have.
